

People Insights

Get proactive, practical, and trusted guidance automatically that **helps you help your people.**

Making the right decisions for your people and your organisation is challenging, especially when you have limited resources and many competing priorities. That's why UKG Ready® People Insights delivers the information you need to be confident you're on the right path without adding to your workload. UKG's AI for managers and employees becomes your advisor, automatically finding opportunities for continuous improvement to maximise your time, focusing on the data needed for meaningful action, and helping you make a proactive, positive impact.

Quick Flight Risk Reduction

Recognise when people are likely to leave, understand what's causing it, and re-engage them to improve their experience. Reduce cost and risk for the organisation based on timely alerts that highlight a variety of contributing factors.

Versatile Sentiment Analysis

Know how people feel about important activities and initiatives across the employee lifecycle to make the right decisions based on facts instead of instincts in areas such as recruiting evaluations, engagement surveys, and performance reviews.

Actionable Benchmarks

Automatically understand what normal looks like for your organisation and identify outliers fast. Get advice on how best to present that data in a way you and others can use to drive positive change or mitigate risk in the right areas, without guesswork.
